

## Construction Update:

- East railroad bridge (2 tracks) is operating.
- West side sheet pile installed.
- West side tieback conflict has been resolved, work to progress beginning the week of 7/22.
- Sound Transit commuter rail station project held its groundbreaking ceremony on 6/24.
- Pile driving to occur in late August – more info will be sent out as the schedule is finalized.

## Project Coordination

The Sound Transit Commuter Rail Station project has begun construction. The ST contractor - Absher and the Strander contractor - Atkinson, are coordinating closely with each other on environmental protections, permits, construction access, schedules, and other relevant issues.

## Construction Photos

① June 24<sup>th</sup> – Sound Transit commuter rail station groundbreaking ceremony.

② Early July – Final grade on east side of railroad bridge.

③ Early July – Partial removal of sheet pile as seen from the west side.

④ Early July – South side sheet pile on west side.
